

ABRALF Rescue Hauler System

The RALF Pulley system is designed for use in rescue, confined space working and work suspension systems.

The RALF Pulley has an over-speed brake built in so that the Pulley will lock on and hold when a fall occurs. The load rated Becket eye on the RALF means that it can be used in combination with Prussik pulleys to create a 3:1 or 5:1 mechanical advantage system.

Product Code:	ABRALF
Conformance:	CE 0120
	ANSI Z359 :4: 2007
Rope:	11mm EN1891-A
	Ropes Only
Pulley Material:	Aluminium
Working Length:	15m
Service Interval:	12 Months
