

COMBI Combination Harness

The Abtech Combi Harness is ideal for users who require to switch between working in restraint and working in fall arrest.

The unique lanyard located on the Dorsal attachment of the harness allows the user to work in Fall Arrest. If the situation changes and they require to work in Restraint, they can bypass the shock pack and safely work in restraint.

Restraint Length - 1.75m
Fall Arrest Length - 1.25m or 1.95m

A fall arrest harness with one attachment point (Rear 'D').

Integral combination lanyard, which can be used for restraint or fall arrest.

The equipment is contained in a kit type bag ideal for transportation and storage.

Single Point Harness, Fall Arrest / Restraint Lanyard c/w Karabiners and Kit Bag
