

RT3 Two Person Rescue Tripod

The RT3 has 6 anchor points, each tested to EN795.

The 3 overhead pulleys hold up to 11mm rope and the extra swivel anchor points may be used with pulleys for a double roped rescuer, back-up system, airlines, communication lines, medical kits, tools etc.

For stability, the tripod legs may be individually adjusted.

Anchor lines may be attached to the eye bolts on the tripod head.

The height of the tripod enables a casualty on a stretcher raised vertically to be lifted clear of the entrance.

The RT3 has detachable legs for portability and storage.

Product Code:	RT3
Conformance:	BS EN 795 TYPE B
Attachment Points:	3 Overhead Pulleys 3 Swivel Eyebolts
Safe Working Load:	250kg (5:1 safety ratio)
Weight:	21.5kg
